DETAILED ACTION***Allowable Subject Matter***

Claims 1,3,4,6-10,13-15,18-21,24-28 respectively renumbered as 1-20 are allowed.

The following is an examiner's statement of reasons for allowance: Ando discloses a recording medium on which content stream data is recorded on a stream object and wherein the object has a predetermined size and one or more stream packs as seen in Figure 1. The video objects contain time stamps to verify when the content stream data is packed as further described in Column 4 Lines 45+. However, the prior art of record fails to disclose, suggest, or teach the following limitation:

"..wherein a size of the application packet is small enough so that each of the stream object units excluding the last stream object unit includes at least one entire application time stamp; and wherein a size of an application packet AP PKT SZ satisfies the following relation:

$AP\ PKT\ SZ < SPayload\ SZ \times \{SOBU\ SZ\} - \{N\ AHE + N\ SByte + ATS\ SZ\}$, where, SOBU SZ denotes a size of a corresponding stream object unit, ATS SZ denotes a size of an application time stamp which is formed in units of bytes, SPayload SZ denotes a size of a data space containing information excluding a fixed header area from the stream pack, N AHE denotes a number of application header extensions of said corresponding stream object unit, and N SByte denotes a number of stuffing bytes of said corresponding stream object unit."

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
